N butun soni berilgan, natijaga **0** dan **N** gacha bo'lgan sonlarni **list** ko`rinishida chiqaring.

Input: *N (N>0)* .

Output: 0,1,2,3..N-1 (*list*).

Input:	Output:
6	[0, 1, 2, 3, 4, 5]
4	[0, 1, 2, 3]

For02

N butun soni berilgan, natijaga **0** dan **N** gacha bo'lgan sonlarni **str** ko`rinishida chiqaring.

Input: *N (N>0)* .

Output: 0,1,2,3..N-1 (*str*).

Input:	Output:
4	0,1,2,3
3	0,1,2

K va **N** butun sonlar berilgan (N>0). **K** sonini **N** marta takrorlab **list** ko`rinishida chiqaring.

Input: K, N.

Output: Natijani chiqaring(*list*).

Input:	Output:
3 4	[3, 3, 3, 3]
6 3	[6, 6, 6]

For04

A va **B** butun sonlar berilgan . **A** dan **B** gacha bo`lgan sonlarni **list** ko`rinishida chiqaring.

(A va B ni ham o`z ichiga olgan holda).

Input: *A, B* (B>A).

Output: Natijani chiqaring.

Input:	Output:
3 8	[3, 4, 5, 6, 7, 8]
1 4	[1, 2, 3, 4]

A va **B** butun sonlar berilgan. **B** dan **A** gacha bo`lgan butun sonlarni *list* ko`rinishida chiqaring.

Input: *B,A* (B>A).

Output: Natijani chiqaring.

Input:	Output:
7 2	[7, 6, 5, 4, 3]
10 2	[10, 9, 8, 7, 6, 5, 4, 3]

For06

Ikkala **A** va **B** (A <B) butun sonlar berilgan. **A** dan **B** gacha bo'lgan oraliqdagi barcha butun sonlarning yig'indisini toping.

Input: A, B.

Output: Natijani chiqaring (int).

Input:	Output:
2 9	35
5 12	56

 ${\it N}$ butun soni berilgan, natijaga ${\it 0}$ dan ${\it N}$ gacha bo'lgan toq sonlarni ${\it list}$ ko`rinishida chiqaring.

Input: *N (N>0)* .

Output: 1,3,5....N-2 (*list*).

Input:	Output:
9	[1, 3, 5, 7]
12	[1, 3, 5, 7, 9, 11]

For₀₈

N butun son berilgan (N>0). Quyidagi yig`indini toping:

$$1 + 1/2 + 1/3 + ... + 1/N$$
.

Input: N.

Output: Natijani chiqaring(Haqiqiy,float).

Input:	Output:
5	2.28333333333333
3	1.83333333333333

1 kg shirinlikning narxini kiriting. Ushbu shirinliklarning 1,2,3 dan 10 kg gacha bo`lgan qiymatini *list* ko`rinishida chiqaring.

Input: price (haqiqiy son).

Output: Natijani chiqaring (List).

Input:	Output:
34.0	[34.0, 68.0, 102.0, 136.0, 170.0, 204.0, 238.0, 272.0, 306.0, 340.0]
20.5	[20.5, 41.0, 61.5, 82.0, 102.5, 123.0, 143.5, 164.0, 184.5, 205.0]

For10

A haqiqiy va **N** butun soni berilgan (N>0). 1 ta sikl yordamida summani hisoblang.

$$1 + A + A^2 + A^3 + ... + A^N$$
.

Input: A,N.

Output: Natijani chiqaring (Haqiqiy).

Input:	Output:
3.0 5	364.0
2.0	255.0
